

MGPS Digital Competition System

Putting in Entries

To put entries into the MGPS digital competition you need to visit the website:

<http://digitalcomp.mgps.org.au/>

Here you will find a web form to submit your entries for the various subjects that have been chosen for the year to come.

Your Details

The first section of the form you need to fill out is your email address, competition number and the subject you are entering.

• Member Details

Enter your email *

Competition Number *

Email and Competition Number

Your competition number is assigned to you when you join the club and have been graded. Your competition number is linked with your email address so if you do change email addresses you need to let the club know. Your competition number also determines your grade.

Entry Type

Select if you are wanting to enter images for the Digital Competition or the Print Competition

• Entry Type

Select entry type *

☐ Digital Competition ☐ Print Competition

Subject

The subjects are listed in the order that they are due, and the next closing subject is always the first subject in the list. You can enter images in ahead of time, which is useful if you're planning a trip and do not expect to be able to put your entry in whilst you are away. Changing the subject selection will show you the definition that has been set for the subject, the due date for digital entries and how many open and set subject images you can enter for that month.

• Competition Month

Select competition month *
Annual (Due: 2025-11-12) ▼

Definition

Only images captured within the past 12 months from submission date are eligible.
Images that have received an Honour or a Merit may also be submitted into this competition.
The Competition Categories (one Image per Category) are:

- Print - Colour - Open Subject
- Print - Monochrome - Open Subject
- Digital Image - Colour - Open Subject
- Digital Image - Monochrome - Open Subject

The competition is conducted in two grades:

- A grade members
- B (includes both AB and B grade members)

Title

The title field is where you enter the name of the image, this is the title that will be read out if the image receives a merit or an honour.

Image File

This field you simply need to select your JPG image file that you are entering, you should not try to type in this field. The system will automatically rename the image file to ensure it is identifiable as belonging to you and that it is for open or set subject.

Image Resizing

The next section is where you can select if you wish for the system should auto resize your files if they are not correctly sized. The competition requires that your images be no larger than **1920pixels wide by 1080pixels high**, this is the maximum size that the projector projects the images at. Please note that if your images are vertical the maximum height is 1080 pixels **not** 1920 pixels.

• Image Processing

☒ Automatically reduce image size to 1920 pixels wide by 1080 pixels high.
You will be notified if any of your images required resizing and provided a link to review the image.

☐ Do NOT resize images.
Warning: if your images are oversized, you will receive an error and have to re-upload your entry.

Automatic

This is the default and recommended option, your images if sized at or below 1920 pixels wide by 1080 pixels high will not be changed. If your images are over the size limit, the system will automatically resize them (keeping your aspect ratio) to the correct size.

Do NOT resize

If you choose the option not to resize your images, you will get an error message after submitting the form if you try to enter an image that is not within 1920 pixels wide by 1080 pixels high, and you will need to correct your image and select ALL of the image files again.

Updating

- **Update Entry (Optional)**

☒ **Update Existing Entry**

Entry key

Enter your entry key...

Your **Entry Key** can be found in your **submission email** or in [My Entries](#)

You will only need to tick this box if you have already submitted an entry for the subject.

When you are updating an entry, you will need to enter the entry key you received via email after completing your initial entry, direct links for updating your entry are also in the email.

The Entry Key is also available from the My Entries page.

When you are updating your entry, you only need to submit the image(s) you wish to change, the others will not be changed.

Submitting

The final section of the form is the security code to prevent SPAM Bots, this is a randomly generated code that you need to type into the provided field. Once you have entered the security code you can click the Submit button and it will start uploading your images to the web, depending on the file sizes and your internet connection this might take a few mins.

Please note uploading files larger than 2MB each might encounter problems, if you do encounter an error. Try uploading 1 image at a time.

Entry Summary Page

Once you have submitted your images you will be presented with a screen showing a summary of the completed entry, the details are also emailed to you. The summary shows the subject you have entered, the image titles, the image size and if they have been resized it will show the original size. It also provides links so you can review each of the images you have submitted for this subject, update or correct the entry and place a new entry.
